or of George H. Sutherland and his
recent success at the British Empire
games in London, England.

BLAIRMORE PUBLIC BRARY

Books being placed on the shelves
and available for Saturday, September
the 15th, are as follows:

"The House of Courage," Mrs.
Victor Rickard; "The Great Imperson-
ation," E. Phillips Oppenheim;
"The Web of Time," Robert E.
Knowles; "Brass Commandments,"
Charles A. Seltzer; "The Black Ab-
bott," Edgar Wallace; "The Love of
Julie Borel," Kathleen Norris; "Sci-
entific Sprague," Francis Lynde;
"The Head Coach," Ralph D. Paine.
The library hours are Tuesdays,
Thursdays and Saturdays from 7 to
9 p.m. The fees are \$1.00 for residents
and \$2.00 for non-residents per year.
Non-resident students attending
the Blaimore high school admitted
under resident membership fee of
\$1.00 per year.

EXCURSION FARES TO EASTERN CANADA

Winnipeg, Man.—Another low fare
travel bargain to Eastern Canada
points will be offered the travelling
public by the Canadian railways, ac-
cording to an announcement made
recently by Jos. B. Parker, secretary
of the Canadian Passenger Associa-
tion.

The special rates will apply from
all stations in British Columbia, Al-
berta, Saskatchewan, Manitoba and
Ontario as far east as Port Arthur
and Armstrong and will be good to
all stations in Eastern Canada from
Sault Ste. Marie, Sudbury, Capreol,
Cochrane, Windsor, Sarnia and east.
Tickets will be on sale from Septem-
ber 21 to October 2 inclusive, and a
thirty day return limit has been al-
lowed. Stopovers will be permitted
at Fort William, Armstrong and east.
Tickets will be offered at the rate
of approximately one cent a mile each
way, and will be good in coaches
only. Tourists sleeping car accommo-
dation will be available at slightly
higher fares.

The Svec brothers have purchased
The Meat Market from E. W.
Brown.

BLAIRMORE CITIZEN KILLED BY AUTO

A Blaimore miner named Joseph
Valek, aged about thirty-three, met
almost instant death when hit by a
car driven by Frank Van Dusen on
Monday night about 10:30, as Valek
was walking across the Victoria
Street and Ninth Avenue intersec-
tion.

Cause of the accident is believed
to have been glaring lights of an ap-
proaching car, coupled with an effort
to avoid hitting a section of the
newly-built boulevard.

Valek is believed to have stumbled
when he noticed the close approach
of the car, and as he fell his head
came into contact with the bumper
or radiator, fracturing the skull. He
was rushed to the local hospital, but
death overtook him as he was being
admitted.

Valek was a native of Czechoslo-
vakia, where his wife and four chil-
dren survive him.

An inquest was held last evening,
and the remains are to be laid to rest
on Saturday.

The inquest concluded last night,
the jury returning a verdict of acci-
dental death.

HARRY KURYLUK DIES IN LOCAL HOSPITAL

Harry Kuryluk, of Bellevue, who
had been employed as cook at the
Frank relief camp, passed away sud-
denly at Blaimore hospital on Sat-
urday afternoon. He is survived by
his widow and four children, resid-
ing in Bellevue; also one brother,
Nick Kuryluk.

He was a Slavonian by birth and
resided for a time in the States prior
to taking up residence in Bellevue.
The remains were laid to rest at
Bellevue on Sunday.

MINER KILLED AT HILLCREST

A miner named Joseph Lorine,
aged about 23, was instantly killed in
the mine at Hillcrest this forenoon
at 10:20 by a fall of rock, while fol-
lowing his occupation as car hand-
ler.

Lorine was a native of Czechoslo-
vakia, where his wife and family of
four or five children reside. Fun-
eral will take place on Sunday after-
noon.

DEATH OF MRS. J. B. BRUNEAU

Friends and old timers will be sorry
to hear of the death of Mrs. J. B.
Bruneau in her 66th year, who passed
away on September 3rd in Van-
couver after a lingering illness, hav-
ing been a great sufferer from kidney
trouble for years. As Miss Annie
Berry, she came to Pincher Creek in
1886, when she was 18 years of age,
and was one of the first young ladies
of the town. She was married in
December, 1897, to Mr. J. B. Bruneau,
who predeceased her in 1919, four
children being born here. They re-
sided here until about 1911, when they
moved to Blaimore for a short time
before permanently residing in Van-
couver. She leaves to mourn her one
son, Mr. C. H. Bruneau, London,
Washington, and two daughters, Mrs.
Houghland and Miss Edna, of Van-
couver. Mrs. Jenkins, of Pincher
Creek, is a sister, and Messrs. Sam
and George Berry brothers. At the
time of going to press the funeral
arrangements are not known. Pin-
cher Creek Echo.

J. B. and Mrs. Bruneau resided in
Blaimore for a number of years, and
built and occupied a house at the
corner of State Street and Eighth
Avenue, now the site of the Olivier
residence, until recently occupied by
A. J. Kelly and family, now occupied
by C. M. Larabaster and family.
Bruneau operated a livery stable be-
hind the Cosmopolitan hotel.

The flag of our country flies daily
over the Coleman school.

OFFICIAL OPENING OF NEW CHURCH AT BEAVER MINES

The official opening of St. An-
thony's Catholic church at Beaver
Mines will take place at 10:30 a.m. on
Sunday, September, the 16th, with
solemn Blessing by His Excellency
P. J. Monahan, Bishop of Calgary.
Confirmation will take place at 2:30
p.m.

A cordial welcome is extended to
all to come and visit the new church.

HILLCREST HAPPENINGS

Miss Esther Ironmonger returned
Thursday from a three weeks' vaca-
tion in Vancouver.

Mr. and Mrs. J. Hunter, of Leth-
bridge, are visiting at the home of
Mrs. J. Seaman.

Ralph Draper left for Calgary last
week, to attend normal school.

Mr. and Mrs. Brushett, of Edmon-
ton, are guests of Mr. and Mrs. W.
Brushett.

The Saturday night dance at the
Union hall was a great success.

Mrs. Lawrence and baby are spend-
ing a few days in Calgary.

Mrs. Stenhouse and Evelyn re-
turned from Vancouver on Thursday.

Clarence Hulley, a member of the
Michel-Natal teaching staff, was a
visitor at the home of Mr. and Mrs.
J. Atkinson over the week end.

Mr. and Mrs. H. Lewis and Helen
Jones are spending a short holiday in
Calgary.

A very successful sale of work and
home cooking was held in Mrs. Steven-
son's garden on Monday afternoon,
in aid of the United church. For the
evening, a carnival was staged in the
allotment, and was very well attend-
ed. The bazaar was a great financial
success. In the draw, Mrs. E.
Crichton won Mrs. Stevenson's beau-
tiful painting, Mrs. H. McLean the
cushion, and the knitted suit went to
a Coleman lady.

Mr. and Mrs. McDougall were Cal-
gary visitors last week.

Samuel Richards left Thursday for
Calgary, to attend normal school.

A farewell party was held Tuesday
night for Miss Vincen Cassagrande.
Dancing was enjoyed, with the Band
its orchestra in attendance. On be-
half of the Catholic girls, Miss Angeli-
na D'Amico presented Miss Cassa-
grande with a token. The evening
was brought to a close with the sing-
ing of "She's a jolly good fellow."
Miss Cassagrande is leaving Wednes-
day for the east, where she will take
up studies.

Mrs. W. Foster returned Thursday
from a visit to Vancouver.

Mr. and Mrs. L. Fumagalli were
Cranbrook visitors over the week
end.

The Pythian Sisters are busy pre-
paring for their sale of work and
home cooking, to be held the first
week in November.

The Harvest Thanksgiving service
was held in the United church on Sun-
day evening. The Sunday school re-
sumed Sunday morning.

Mr. and Mrs. John Brown, of Cal-
gary, were visitors at the home of
Mr. and Mrs. G. E. Cruickshank on
their return from California, where
they had been spending the summer.

Mrs. P. Salt returned Sunday from
her visit to Vancouver and Victoria.

Bob Cruickshank left Sunday for
Edmonton, to resume his studies at
the university.

Miss Mary Davies left Wednesday
for Calgary, where she will continue
her studies.

Mr. and Mrs. J. Mansell returned
Thursday from their holiday visit to
Vancouver.

W. Hutchison is visiting in Van-
couver.

Sergt. J. J. Weaver, of the Leth-
bridge detachment of the R.C.M.P.,
formerly of Blaimore, is being
transferred to Medicine Hat, succeed-
ing Corp. J. K. Barnes, who goes to
Lethbridge.

BELLEVUE HAPPENINGS

The remains of the late James
Pelle were laid to rest on Sunday at
3:30 p.m. Followed by a number of
cars and people on foot, the funeral
left the Roman Catholic church and
proceeded to the Bellevue cemetery,
where Rev. Father Donovan admin-
istered the last rites. Floral offerings
were many and beautiful, bespeaking
the esteem in which Mr. Pelle was
held. The sympathy of the entire
community is extended to Mrs. Pelle
and the children in their bereavement.

Mr. and Mrs. B. Morabito and fam-
ily, of Creston, are visiting at the
home of Mr. and Mrs. Nastasi, at
Pasquage. Mr. Morabito was at one
time shoemaker here.

Mr. and Mrs. Wilfred Woodhouse,
of Trail, were visiting here, guests
of Mr. and Mrs. H. Harrison.

Mr. and Mrs. Gordon Key are hol-
idaying at Canmore and Calgary.

Mr. and Mrs. Frank Pelle, of Sir-
dard, B.C., were in town to attend the
funeral of Mr. J. Pelle.

Mr. and Mrs. Fryer, of Lethbridge,
were visitors at the home of Mr. and
Mrs. W. Berry. They left for Medi-
cine Hat on Tuesday.

Mrs. Cherbo and son Pete, of Sir-
dard, B.C., are visiting at the home
of Mrs. Pelle.

The passage between the United
church and the Oddfellows' hall was
closed on Wednesday morning. This
passage was left open for the con-
venience of the public, but because
the privileges were being abused, the
church board decided that for their
own protection it should be closed.

Benny Watson is visiting at the
home of his parents, Mr. and Mrs.
A. Watson.

Mrs. H. Campbell, who had been
visiting her brother for the past two
weeks, returned to her home in Creston
last week end.

Mr. and Mrs. C. W. Johnson left
Sunday on a two weeks' vacation.

Mrs. W. Blinston, of Cranbrook,
who had been visiting at the home of
her daughter, Mrs. C. W. Johnson,
returned home on Sunday.

Mrs. J. Hill entertained a number
of friends on Tuesday evening.

Mrs. Foster, who had been visit-
ing at Macleod and Lethbridge, re-
turned on Monday.

J. Freebairn, of Pincher Creek, suc-
ceeds Art. Nicol at the local branch
of the Royal Bank of Canada.

Mr. and Mrs. J. J. McIntyre, ac-
companied by Mr. Clark, left by auto
Wednesday afternoon for Calgary to
attend a mining institute meeting.

Mrs. S. Crayford, who is far be-
yond the three-score-and-ten span in
years, lies critically ill at her home,
the Ross ranch, north of Lundbreck.

Clive Nesbitt and James L. Nes-
bitt, sons of Leonard Nesbitt of the
Alberta Wheat Pool publicity depart-
ment, have taken over the Bassano
Mail.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larke, Minister

"Serve the Church that the Church
May Serve You."

SerVICES Sunday, September 16th,
the minister in charge.

10 a.m.—JUNIOR SCHOOL.
11 a.m.—PUBLIC WORSHIP.

Members and friends of the Central
United church congregation will
please note that the hour of service
throughout the month of September
will be 11 a.m.

HARVEST THANKSGIVING SERVICE SUNDAY NEXT

Next Sunday will be the occasion
for the Harvest Thanksgiving service
at the Blaimore United church. The
service will be held at 11 a.m., to
which members and friends are cor-
dially invited. There will be special
music at this service. Friends are
requested to leave vegetables, flowers
and fruit at the church on Saturday
afternoon, not later than 5 o'clock if
possible.

There will be a pie social and sale
of garden produce on Monday even-
ing.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, B.A., Rector

SerVICES Sunday, September 16th,
Sunday School at 10 a.m. in the
church.

Morning service at 11 o'clock.
Harvest Festival, Sunday, Septem-
ber 23rd.

Blaimore is probably the only
town on earth that is suffering from
a one-man dietation.

Mr. Large, of Cranbrook, has ac-
cepted a position in the Blaimore
Pharmacy, succeeding Cecil Johnson,
who is going to University.

Mrs. S. Crayford, who is far be-
yond the three-score-and-ten span in
years, lies critically ill at her home,
the Ross ranch, north of Lundbreck.

Clive Nesbitt and James L. Nes-
bitt, sons of Leonard Nesbitt of the
Alberta Wheat Pool publicity depart-
ment, have taken over the Bassano
Mail.

Uniform Price System Advocated

Introduction of a uniform price system throughout Canada as a means of distributing whatever benefits result from protective tariffs and of equalizing production costs, was advocated by J. D. McKenna, St. John, N.B., publisher, in a recent submission to the royal commission investigating Nova Scotia's economic situation.

Urging equalization of wholesale prices of all protected goods manufactured in this country, Mr. McKenna contended that Montreal and Toronto virtually monopolize whatever benefits resulted from protective tariffs. Eighty-five per cent. of manufactured goods came out of Ontario and Quebec, he said, and because costs of the finished articles included all the taxes imposed by governments, provincial and federal, it followed that people of other provinces purchasing those goods, had to "pay not only their own taxes but theirs as well—and that comes to a pile of money."

His scheme to equalize costs and to standardize prices throughout the country, involves absorption by manufacturers of freight charges, a process with which many in Western Canada would be prone to agree. This, Mr. McKenna claimed, would permit manufacturers to place their products on the market at a uniform price—the same in Halifax, Regina and Vancouver as in Toronto and Montreal. Press despatches note that at the close of his presentation, Mr. McKenna was complimented by Prof. John Harry Jones, of Leeds University, England, who, noted as an economist, is chairman of the commission.

The contentions and proposals of Mr. McKenna are by no means new to Western Canada. Least of all are they new to a certain small group of Saskatchewan economic students which, for two years or more, has quietly been conducting inquiries along similar lines, with a view eventually of sponsoring a plan which might be adopted as a "western policy." This group has concentrated its attention upon the price structure, seeking to determine what inequities exist with it, noting more particularly the effects upon it and upon the purchasing power of the prairie provinces of freight, tariff and taxation costs.

The former favorable disparity in wage and salary scales as between Western and Eastern Canada having disappeared under stress of economic conditions, or being noticeable only in reverse, the Saskatchewan group has been seeking something to compensate the loss. Though prices of manufactured goods had fallen, the drop was commensurate with the drop in prices of farm products, and seemed to be determined largely by the reduced purchasing power of consumers in the West. Somewhere within this price structure, it was felt, lay certain factors which, if equalized or removed, would effect much-needed adjustments. Hence came the attack upon prices.

The Saskatchewan group has laid stress on the fact that, while freights and tariffs have increased farmers' production costs, they have received no compensation from manufacturers of consumers' goods, nor have the advantages accruing to the industrialized areas been distributed as it was thought, they should be. From this it was argued that, as consumers, prairie farmers were encouraging a system which tended to centralize industry in the Toronto and Montreal areas, which areas derived direct benefits from local taxes payable by the industries and from circulation of the payrolls of such industries. This system, it was contended, placed the West under toll both at home and in the East.

It was felt, therefore, that, inasmuch as these advantages were accorded the manufacturing area of the East, there should be some compensatory factor, some method of distributing benefits, to all parts of Canada in the price structure. That is to say, while goods might cost a little more in the area of their manufacture, they would cost a little less in the area of their consumption. And inasmuch as the principle already is applied in the case of nationally-priced products, the proposition at first sight appears fair and just. The West will watch eastern reactions to the proposal made by Mr. McKenna, with considerable interest.

Border Cuts Off Hospital

Free State Board Has To Cross Line To Inspect It

Derry Port sanitary board has just held a remarkable meeting, the members leaving Northern Ireland to go into the Free State to deal with the business for which the meeting was summoned. The board crossed the border in taxis to inspect its hospital at Ballyrattan, near Moville, in County Donegal, a hospital which has never had a patient since its opening thirteen years ago. It was built to deal with cases of infectious disease on vessels coming to Derry, but before its completion, the border had been created, with the result that the board was left on one side of the border and the hospital on the other.

No solution of the situation has ever been devised and the board decided to effect repairs to the institution, the chairman remarking that "the present state of affairs cannot go on forever."

South Africa Satisfied

Secession of South Africa from the Empire is as "dead as a dodo," according to General Smuts. Yet 34 years ago says the Ottawa Journal, General Smuts was riding the veiled warning on the Empire. History tells of little more splendid than this conciliation between Briton and Boer.

Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end. Allow the profuse diarrhoea, the vomiting and purging to continue for a day or two, and you may become weak and prostrated.

Just as soon as you feel any looseness of the bowels get out at once to your druggist and get a bottle of Dr. Fowler's Extract of Wild Strawberry and check this natural action before the weakening looseness can get started.

Don't experiment. Get "Dr. Fowler's." It has been on the market for 88 years.

Not Very Profitable

Abraham Lincoln Made Very Little From Law Practice

When Abraham Lincoln was elected president of the United States, his bank balance aggregated \$601.44.

The original ledger showing his account now is on display in the Springfield Marine bank at Springfield, Illinois, where Lincoln was a depositor from March 1, 1853, until his death. His account after his death was continued by his administrator, Judge David Davis, of Bloomington, Ill., being finally closed on May 22, 1867.

The ledger in which his account appears is displayed in a glass and wrought-iron show case. The ledger is turned to a page on which is written in fine script the name "A. Lincoln" and the entries on the page bear out the certainty that his income from the practice of law was meagre at times.

COULD NOT SEW A BUTTON ON

Her Hands Were Helpless With Rheumatism

At one time she thought she would lose the use of her right hand. But "a blessing"—in the form of Kruschen Salts—put her right again.

"I was sure in a bad state," she writes, "in fact, I could not do my housework, I was so bad with rheumatism in my arms and hands. I could not sleep at nights, and I thought I would lose the use of my right hand. I could not hold anything, nor could I sew a button on. My arm would go dead. I was advised to try Kruschen, and inside of three weeks I found such a change. I have kept on taking it, and now I sleep all night—thanks to Kruschen's help and relief." (Mrs.) J. H. H.

Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals, which are responsible for rheumatic agony. Other ingredients of these salts assist Nature to expel these dissolved crystals through the natural channel.

Wheat Situation Hopeful

Supply For 1934-35 More Closely Related To Probable Demand

The crop year 1934-35 is commencing with the general wheat situation not without its hopeful aspects, the Dominion bureau of statistics states. The supply of wheat available for the present cereal year has been greatly reduced by virtue of a second successive crop disaster in the United States, the certainty of a low yield in Canada, a sharp reduction in production in many European countries and the prospects of a small crop in Australia. These developments combine to produce a situation where the available supply of wheat is more closely related to probable demand than at any time in recent years, the bureau said.

According to the United States department of agriculture, production of corn, wheat, oats, barley, rye and flaxseed are expected to be the smallest in 30 years.

Value Of The League

Exerts An Immense Force In The Prevention Of War

There is probably not a single country in Europe where the common people would blindly follow its leaders into war, if called upon to do so. All the nations of the world have in fact formally renounced war as an instrument of national policy, and the machinery of the League of Nations exists for its prevention. It is quite certain that, if war were imminent, threatened, or were actually to break out in one quarter, resort would be made to the League, whose power of collective action, even if never yet fully utilized, is potentially immense. Its mere existence has undoubtedly acted as a deterrent at least upon the lesser nations and upon those which are not removed by oceanic distances from Geneva—London Times.

Experimenting With Dry Ice

Air Cooled "Planes Would Facilitate Travel In India

A transportation company in India is experimenting with dry ice, or cold carbon dioxide, as an agent for cooling aeroplanes. If satisfactory results are obtained, planes travelling across that country will be air cooled in future. Should experiments prove successful travel should be facilitated between Calcutta and Bombay, where summer temperatures of 110 degrees are considered normal and 130 degrees is sometimes exceeded.

Doorkeeper—Say, come back. Dogs are not allowed in here, sir.

Visitor—That's not my dog.

Doorkeeper—Not your dog? Why, he's following you.

Visitor—Well, so are you.

A Wonderful Operation

Severed Eye Muscle Sewed And Woman's Sight Restored

An operation—one of the most delicate in eye surgery—has restored sight to a Memphis woman.

Platinum needles, electrically heated, punctured the eye 20 times in the course of the skilful surgery which regained for Mrs. Westwood Sayre 75 per cent. normal vision.

She lost the sight of one eye in June as she returned to her home from her flower garden. The other eye was not affected. A noted Memphis eye specialist said it was a real delicacy.

Severing a muscle he turned the eyeball inward. Foreign fluid had accumulated behind the retina causing it to bulge toward the centre of the eye. The retina is the curtain on the back of the inside of the eye on which images are focused and nerve sensations are transmitted to the brain. Blindness results if the retina is disturbed.

On the outside and back of the eyeball is a fibro-muscular covering which controls the movements of the eye and keeps the eyeball in shape.

From the outer edge of the fibro-muscular coating to the area under the bulging retina was a distance of one-eighth of an inch long. A tiny incision would be pierced, endangering both sight and loss of vitreous, the jelly-like substance that keeps the eye round.

Twenty platinum needles, each one-eighth of an inch long, each with a silk thread in one end, were placed nearby.

Clamping the first with an instrument which brought electricity to the needle until it was hot, the surgeon inserted the fiery point into the sclera.

Twenty times the eyeball was pierced. Then slowly he grasped the thread and pulled out each needle. The severed eye muscle was sewed.

For two weeks the patient lived in total darkness, her head braced to prevent movement which might break tiny connections where the needles had seared through the eyeball, allowing one-half teaspoon of fluid to drain off and causing the retina to wriggle when it resumed its normal position.

The retina slowly dropped back into position. The eye healed. Bandages were removed. Light filtered into the retina. Objects became distinct.

Interesting Old Clock

Timepiece Of Catherine The Great To Be Repaired

A 17th century clock, made by James Keels, an English craftsman, and presented to Catherine the Great by her favorite, Marshall Potemkin, is to be restored, says a Leningrad message. The clock, which is of great artistic value, has not been in working order since 1915. When it is in working order, at noon every day the image of a peacock on the clock stands up and spreads its tail, which is made of gold; a cock, four or five times larger than the peacock, stands on the wall, sitting on a branch above, rings a number of small bells.

Faster Planes Needed

French Air Staff Says Paris Would Be Helpless From Invasion

An invading air fleet will wipe Paris completely off the map unless France gets faster fighting planes, the French air staff believes. Officials said the four day's aerial manoeuvre, recently held, showed conclusively that the capital cannot, with present effectiveness, be defended against air raiders, and emphasized sharply the urgent need for speedier aircraft.

A force of rebuilt pursuit planes failed to match the speed of heavily loaded bombers, comprising the "attacking fleet," the average speed of which was 140 miles an hour.

Jane—"My Scotch boy friend sent me his picture yesterday."

Joan—"How does he look?"

Jane—"I don't know yet. I haven't had it developed."

Many new commercial ships are being put into service in Greece.

BABY SCALDED!

Quick! Get the MECCA OINTMENT

Stop the pain and agony by applying Mecca Ointment to the scalded area. Mecca Ointment is the only ointment that will soothe and heal the burn or scald. Mecca Ointment is the only ointment that will soothe and heal the burn or scald. Mecca Ointment is the only ointment that will soothe and heal the burn or scald.

Mecca Ointment is sold by all Druggists—25c, 50c (tube), 75c and \$1.00.

PLUG SMOKING TOBACCO

Ontario Municipal Debt

Stated Debt Is Largest Of Any Province In Canada

Thomas Bradshaw, president of the North American Life Assurance Company, told the Ontario Association of Ontario's municipal debt in default is the largest of any province in Canada.

Forty municipalities in Ontario, Mr. Bradshaw said, are in default to the extent of \$96,640,819 while the nearest approach to that figure is found in Quebec where the defaulting debt is \$15,000,000.

"No section of Canada, up to four years ago, has a finer reputation for municipal credit than the province of Ontario," he said. "To-day no section in Canada has a more serious municipal problem on its doorstep than Ontario."

Moose Is Fast Runner

Proved It By Travelling 35 Miles An Hour

How fast is a moose? Ask Charles Mumford of Yarmouth, Nova Scotia. He'll say 35 miles an hour.

While Mumford was motoring home to Yarmouth a young bull moose in the road became frightened by the headlights and started running ahead of the car, maintaining his distance for a while while the machine travelled 35 miles an hour. Coming to a rise, the moose slowed to a 20-mile rate, leaped from the road and became tangled in a barbed wire fence. Mumford and others from the car were able to help the animal escape by shaking the fence.

Switzerland Heads List

Leads All Countries In Annual Consumption Of Milk

Statistics released by the Department of Agriculture show that Switzerland leads all other countries of the world in the annual consumption of milk, with 280 quarts per person.

Second place for this distinction is shared by United States and Germany, each of which boasts of 220 quarts per person. Canada ranks next with 200 quarts.

The figures on other large milk-drinking nations also computed annually and per person, are as follows: Great Britain, 130 quarts; France, 100 quarts, and Chile, 30 quarts.

Evidently He Knew

"Bambo," said the magistrate reproachfully to the negro before him. "I cannot conceive of a manner, more cowardly act than yours of deserting your wife. Do you realize you are a deserter?"

"If you knowed dat lady as I does," replied Bambo, "you wouldn't sho' call me a deserter. Ah is a refugee—dat's what Ah is."

Applies To Advertising

If you had a whole bushel of chain links, it would not pull a load. Put them together in a continuous chain and you have a strong and powerful thing with which to pull a load. So it is with advertising. Link your ads together, run them in a continuous string, week after week and you will produce results.

There are 1,225,700 miles of motoring roads in Europe and the British Isles.

It Could Be Done

Midland Gardener Used Only Waste Water For Plants

At the Midland Bank Horticultural Society's show it was remarked that the winners of seven prizes exhibited blooms watered entirely with waste-water, bath-water, basin-water; at any rate not fresh tap water, of which he proudly boasted that he had not used a drop in his garden during these months of drought.

It can be done. Therefore it ought to be done—as King Edward was fond of remarking mainly of things that were not done in his time. Do not ask us please, how to get or convey bath water. Either find out, or don't use any water. A moral maxim for horticulturists.—London Daily Mirror.

Super-Race For Alberta Development of a superior race of people such as has never been known in the world before was pictured as the future of Alberta through the combining of the province's wealth of natural resources and the ideals of the cosmopolitan population which live within its boundaries, by W. R. Howson, M.P.P., provincial Liberal leader, in an address given at Edmonton.

The United States ships quite a lot of shoe blacking to Africa. The natives probably use it for cold cream.

King George V. once paid \$8,000 for a rare stamp.

G. F. TOWERS IS TO BE HEAD OF CENTRAL BANK

Ottawa.—The Dominion government has appointed one of the youngest of Canada's leading bank executives to head the new central bank now in process of establishment. He is Graham Ford Towers, assistant general manager of the Royal Bank of Canada, who will celebrate his 37th birthday in a few weeks.

Appointment of Mr. Towers as first governor of the Bank of Canada was announced by Hon. E. N. Rhodes, minister of finance, upon whose shoulders rests the responsibility of initiating and establishing the new institution.

Born and educated in Montreal, Mr. Towers joined the Royal Bank 14 years ago as an economist and secured experience in foreign banking through his subsequent activities as inspector of branches in Cuba. His career has been one of swift advancement and he has published a volume on "Financing Foreign Trade" which brought him considerable acclaim in financial circles.

In accordance with the legislation authorizing establishment of the central bank Mr. Towers' term of office will be seven years, after which he will be eligible for reappointment. He will leave shortly to visit European central banks to gain experience and knowledge of assistance to him in his new work. It is anticipated the Bank of Canada will be in operation shortly after the new year.

It is the intention of the government that a deputy governor will be secured from some other central bank within the empire so in its initial stages the Bank of Canada may have the services of one high executive with practical experience.

With the problem of electing a supreme head for the bank now solved it is understood further organization will go forward rapidly. There will be a deputy governor and possibly an assistant. Mr. Rhodes will also have to recommend to the governor-in-council, the names of seven shareholders who will act with the governor and deputy governor as the board of directors. This of course cannot be done until the capital stock of the bank is subscribed for, which will be done shortly.

Ottawa will be the main office of the central bank and decision is expected shortly on the premises to be chosen.

Fatten Western Lambs

Federal Plan To Assist Sheep Ranchers in Saskatchewan

Toronto.—Hon. Robt. Weir, Dominion minister of agriculture, announced approval of a plan whereby western range feeder lambs would be fattened in Eastern Canada. Members of the Southern Saskatchewan Sheep Breeders' Association have signed 7,000 head of feeder lambs for shipment to eastern feeding points. Officials of the Dominion livestock branch will find suitable feeding farms and supervise feeding, fattening and marketing operations. Members of the ranchers' association have agreed to consign lambs for fattening under the terms of a rancher-feeder agreement whereby a valuation of three cents a pound is placed on the lambs at the Moose Jaw stock yards.

Freight from shipping point to feed lot will be added to the initial price charged the feeder when lambs go to the feed lot. Freight charges will be met by the Dominion department of agriculture, the department to be reimbursed when sales are made. Ranchers will maintain ownership of the lambs until marketed when the rancher and feeder will obtain their share of proceeds.

To Test Sobriety

Moscow.—An instrument to test sobriety, called an alcoholometer, has been introduced to police stations in Soviet Russia. The suspect is required to breathe through the neck of a glass tube, filled with colorless liquid, for 15 seconds. If the suspect is sober, the liquid becomes pale red; if drunk, a cloudy grey.

Flagship Leaves Vancouver

Vancouver.—H.M.S. Norfolk, flagship of the British West Indies fleet, sailed from here after a four-day visit, bound for her base at Bermuda and thence to England. She is due at Bermuda, October 17, and will return to England the following

W. N. U. 2043

Customs Officers Seize Opium

Time Concealed In Third Class Stateroom On Steamer

Vancouver.—Opium valued at \$4,000 was seized by Canadian customs officers on board the Canadian Pacific steamship liner Empress of Asia here.

The opium, contained in 200 one-lb. tins, was concealed in the false bottom of a wardrobe cupboard in a third class stateroom in the after part of the ship.

One-lb. tins have seldom been seen here, most of the opium seized being contained in five-lb. tins. Authorities believe the drug was intended for either Honolulu or Manila. It was the first opium seizure here in months. No arrest has been made.

Heard The Program

Manager Of Arctic Post Gets Radio Reception From Hearst

Montreal.—"Oh, yes, we heard your speech and also the piccolo," said the manager of an Arctic post of the Hudson's Bay Company to its governor, Ashley Cooper. "The piccolo," Mr. Cooper said, in telling of the incident to a local service club, was a bagpipe broadcast. Mr. Cooper has just returned from visiting the company's northern stations in the steamer Naupoleo. During the trip he broadcast addresses and a piper played reels on the bagpipe.

Try For New Record

Sir Malcolm Campbell Plans To Speed At Five Miles A Minute

London.—Sir Malcolm Campbell, Britain's auto speed king, disclosed at a luncheon here that his plans were about complete to make another assault on his own world automobile speed mark at Daytona Beach, Fla., in January. It was there he set the present standard of 272.108 miles an hour a year and a half ago. Since then he has remodelled Bluebird, his racing car.

His goal is a speed of 360 miles an hour—five miles a minute.

Frost Damages Oats

Prospect Of Seed In North Is Not Promising

Prince Albert, Sask.—Frost has damaged the oat crop in the northern Saskatchewan and the prospect of seed for the 1935 crop is anything but promising. R. H. Tooley, chief supervisor of the Soldier Settlement Board, Saskatchewan branch, stated here.

The quality has deteriorated in some districts to such an extent it is unlikely farmers of the north will have a surplus for seeding the 1935 crop, Mr. Tooley said.

Rests With Membership

Socialist Party And C.C.F. Taking Vote On Merger

Vancouver.—The proposed merger of the British Columbia branch of the Co-operative Commonwealth Federation and the Socialist Party of Canada will rest with the general membership. The C.C.F. provincial council has decided to submit the question to a referendum of members of each constituency body. The vote will be taken as soon as possible and a return must be made within 90 days.

Oppose Emigration Plan

Weymouth, Eng.—Delegates to the Trades Union congress were warned by J. McLeod, Canadian delegate, against emigration schemes "put forward by some members of the House of Commons." He declared such schemes would be "fraught with difficulties, privations and want" unless there was provision for substantial government grants covering a period of years.

Use Canadian Coal

Ottawa.—For the purpose of encouraging greater use of Canadian mined soft coal, the Dominion government has restored the 99 per cent drawback on imported bituminous used for cooking purposes providing the coke manufacturers use 35 per cent Canadian coal.

Market For Bacon

Toronto.—Canadian farmers who could supply the British market with a continuous supply of high quality bacon had unlimited opportunities. Canadian National Exhibition directors were told at a luncheon by Hon. G. Howard Ferguson, high commissioner to London.

Turkey Would Join League

Geneva.—Turkey has decided to present herself as candidate for the League of Nations council to be vacated this month by China.

In Favorable Position

Canada Is Friendly In Relations With Other Countries

Montreal.—While abroad there is little cause for "cheerful split," Canada is in a favorable position, its relations with other countries being friendly, the committee on international relations reported to the Canadian Bar Association in annual convention here.

At present, the report notes, the whole world is faced with a situation in which members of each of the many groups are discussing how best to destroy one another. Each of them is silently conscious that both defender and aggressor in any conflict will be destroyed as a likely result, without any assurance that one group or nation will emerge clearly dominant, the report contends.

Need Larger Army

U.S. Secretary Of War Says Present Force Is Inadequate

Raritan Arsenal, N.J.—Secretary of War George Dern said the United States needed a larger, more effective regular army.

The secretary, who came here for the concluding four days of the army's war game maneuvers against an imaginary enemy invader, said he thought the regular army was not adequately equipped at present, and advocated increasing its strength from 125,000 to 165,000 men.

"The army," he said, "is sadly in need of modernization and mechanization. At its present size the army is not large enough to perform all the peace time tasks assigned to it."

A DEMAND FOR CANADIAN WHEAT IN UNITED STATES

Winnipeg.—With a shortage of Durum wheat in United States becoming more and more apparent, demand for Canadian Durums by United States mills reached a season's peak on the Winnipeg Grain Exchange with the movement south of the international boundary approximating 500,000 bushels. Such exports total about 1,000,000 bushels covering the last two weeks.

Recently top grades of Durum wheat were commanding a 32-cent premium over the September future at both Duluth and Minneapolis, while Canadian Durums were quoted at 17½ cents over Winnipeg October option. This brings the Canadian Durums quotation to approximately \$1 a bushel which despite the 42-cent-a-bushel duty and 2½-cent-a-bushel handling charges still makes the Canadian grain considerably under the United States price.

The United States Durum price at Duluth was \$1.28½ per bushel plus a 32-cent premium making a total of \$1.60½.

Bulk of Canadian Durum wheat is grown in Manitoba and supplies of this variety are being quickly cleaned up.

PRINCESS MARINA TO FLY TO ENGLAND

News comes from Yugoslavia that Prince George and Princess Marina, whose engagement was announced a few days ago, will fly to England to receive the blessing of King George and Queen Mary. The 27-year-old Greek Princess and her British fiancé, are shown above. It is expected the wedding will take place at Westminster Abbey some time in December.

FIRST WOMAN PILOT

Mrs. Amy Johnson Morrison, the first woman appointed as regular pilot of a transport plane on the London-to-Paris route, explains that she took the job for experience in all-weather flying in preparation for a London to Australia flight this fall.

St. Lawrence Waterway

Matter May Be Taken Up In Next Session Of U.S. Senate

Hyde Park, N.Y.—Frank P. Walsh, chairman of the New York power authority, after a talk with President Roosevelt, predicted re-submission of the St. Lawrence waterways pact with Canada to the next session of the United States senate and its ratification.

He has just returned from the northwestern states.

He issued the following statement after his visit with Mr. Roosevelt:

"The project will be re-submitted at the January session, and I am confident construction work will get under way in the spring. The Great Lakes and the St. Lawrence river are perhaps our most valuable natural resources, and they will be fully developed and utilized in the public interests, for both power and navigation purposes, as an integral part of the public works program.

"The present Roosevelt administration will build the St. Lawrence project, and thus give the United States a new seacoast 3,500 miles in length, placing Chicago, Milwaukee, Cleveland, Detroit, Toronto, Superior, Duluth and other great inland cities on the coast, and give the northwest 1,000,000 horsepower of the cheapest electricity in the world."

Deal With Health Matters

Would Hold Special Conference With Provincial Representatives At Ottawa

Victoria.—A special conference of provincial representatives at Ottawa to discuss health matters is being considered, Hon. G. M. Weir, British Columbia provincial secretary, stated here. This province is particularly interested and would "representational control" in dealing with major health problems.

Dr. Weir stated B.C. is paying \$700,000 a year for the health bills of persons from other provinces.

U.S. Textile Strike

Two Men Killed And Many Wounded In Disorders

Washington.—Rioting and death suddenly punctuated the gigantic United States textile strike even as capital and labor prepared to lay their grievances before a board of President Roosevelt's choosing.

Two men were killed, another was near death, more than a score were wounded by bullets and clubs as a wave of violence surged through the strike-torn mill towns of Georgia and the Carolinas.

Francis J. Gorman, chairman of the textile strike committee, blamed "management and reactionary public officials" for the bloodshed. He warned that a continuance would awaken "all the bitterness that can be aroused" in the ranks of the textile army.

Women Out Of Industry

Mussolini Plans To Replace Men In Jobs Held By Women

Rome.—Benito Mussolini was reported planning to replace all women workers out of Italy's industry.

Two reasons it was reliably learned, influenced Il Duce in his decision. Jobs, he holds, interfere with what he believes to be woman's primary duty, the building up of families and the increase of Italy's population.

The positions women hold should be filled with men, thus decreasing unemployment and raising the morale of the people.

An editorial in Mussolini's newspaper, Popolo d'Italia, of Milan, tended to confirm the report that he will move to eliminate woman workers.

Call Of The Clouds

Col. Bishop, War Ace, To Take Up Flying Again

Montreal.—The call of the clouds has once more gripped Canada's ranking wartime flying ace, Lieut. Col. W. A. Bishop, V.C. After an absence of 12 years from active flying, he has decided to climb back into the cockpit. He is now taking instruction at the Montreal Light Aeroplane Club field preparatory to regaining a pilot's license.

Col. Bishop, however, is only going into flying again for personal reasons. He wants to be able to commute between Montreal and his summer home in Muskoka, Ont.

HITLER DECLARES REVOLUTION IN GERMANY AT END

Nurnberg, Germany.—Adolf Hitler, dictator of Germany, declared here: "The National Socialist revolution is ended. It has fulfilled all its hopes."

This declaration he made at the annual convention of the Nazi party, through Robert Wagner, Baden Nazi district leader, who read the proclamation.

Der Fuehrer said revolutions which took a permanent character resulted in anarchy and chaos and merely served the purposes of greedy politicians, and that an evolution had to come to bring about better conditions.

The German leader said the German way of life was fixed for the next 1,000 years, during which time there would be no further revolutions. He described the German regimes of the past 60 years as run by international freebooters and pot-house politicians. He declared later generations would exact the accomplishments of the Nazi movement as the "German miracle."

Then he turned to the recent plebiscite, and stated:

"If foreigners imagine the 4,000,000 'No' voters constituted a dangerous opposition, they are privileged to smile. . . Our next attack will demolish the opposition."

Hitler reiterated that Germany while insisting on her own right, wanted peace and friendship with others.

He took up the subject of religion, saying: "We have endeavored to reconcile the religious confessions with the new state. As far as the Protestants are concerned, we are determined to weld them all into one great evangelical religious church.

Concerning the Roman Catholic Church, he said: "Despite lapses on both sides, we shall arrive at a sincere and honorable understanding."

Hitler concluded with a statement that the program was to consolidate the party organizations such as the Schutz Staffeln, or picked guard, and the storm troops, into one solid bloc purified of elements that were not heart and soul with them, to win over all those who still held aloof.

WANT STIFFER PENALTIES GIVEN FOR KIDNAPPING

Montreal.—Kidnapping and its proper punishment occupied the attention of the Canadian Bar Association at its annual meeting here. In a round table conference a motion recommending the criminal code be amended so as to permit judges to impose the lash in sentences under five years was carried. When the matter came up in the convention as a whole the lash recommendation was dropped and the association went on record as recommending the criminal code be amended in order to give the courts jurisdiction to impose more severe sentences in kidnapping cases.

On the suggestion of Mr. Justice J. B. M. Baxter of New Brunswick that it was inexpedient for members of the association to discuss details of punishment and that legislation was the field of discussion, the recommendation of the committee was altered to carry merely the suggestion that the code be amended to carry more severe penalties than now exist.

Judges and lawyers from all parts of the Dominion took part in the debate on kidnapping. Hon. A. W. Roebuck, K.C., attorney-general of Ontario, appropriately enough in view of the recent Labatt abduction case, occupied the chair when the question came up before the meeting of the association on the recommendation of the committee of administration of criminal justice, that lashes be imposed for the crime.

Suggestions that the funds of people abducted and their relatives be sequestered by the crown made in a speech by Mr. Roebuck, were not approved by a majority of the members after a long debate.

E. J. Murphy, K.C., Toronto, declared kidnapping was the latest brutal man. The danger of preventing ransom was that if it was not paid the kidnappers would probably do away with the victim for to men like Dillinger a life meant nothing when they wanted to protect themselves.

Judge R. H. Murray, Halifax, thought the remedy for criminals was not punishment but the improvement of the social conditions leading to legislation increasing penalties.

Mr. Roebuck said prevention of kidnapping as a profitable business was the best way of bringing it under control. He hoped to embody in a bill to be presented to the Ontario legislature at its next session power to enable the police to suppress the bank account of a kidnapped man and those of his relatives so they could be forcibly prevented from paying ransom money.

Fodder Export

Plan For Exporting Manitoba Straw And Hay To U.S. Is Arranged

Winnipeg.—Arthur MacNamara, deputy minister of labor for Manitoba and chairman of the provincial drought relief committee, stated all machinery for exporting 250,000 tons of straw and hay to United States for relief purposes has been established.

Those wishing to make such exports, he said may obtain application forms from the Dominion seed branch here but before the applications are authorized they must be approved by the drought committee.

Critiques Paintings

Toronto.—George Leroux, official representative of the Academie des Beaux Arts, Paris, France, criticized the paintings by Canadian artists who originally comprised the "group of seven" during a visit to the Canadian National Exhibition art gallery. The French artist said the paintings were unnatural and lacked the spirit of love.

Scott Accepts Post

Toronto.—The provisional committee of the Canadian corps council, organized following the veterans' reunion here early in August, has received acceptance of the honorary presidency of the council from Archdeacon F. G. Scott of Quebec, "the loved padre" of the Canadian forces overseas.

Would Build Pulp Mill

Vancouver.—Possibility for a sulphide pulp mill on the British Columbia coast are being investigated by R. O. Sweeney, Montreal financier, for British capitalists interested in supplying England with raw material for artificial silk and paper manufacturing, he said here.

ALBERTA AFFAIRS IN MESS

Pointing out that in the twelve years of its existence, the Alberta U. F. A.-C.C.F. government has collected for current account some \$169,746,927.15 and has spent for running expenses in that time \$172,806,552.33, which fact is proved by its own figures, W. R. Howson, M.L.A., stated Thursday last that the \$12,076,623.18 over-expenditure was the greatest argument that could be made for a change of government at this time.

"If ever a people needed a change of government, it is the people of Alberta," he said. "The government stands convicted of gross ineptitude on its own figures. A review of the public accounts as printed by the government itself shows that in the 12 years of its existence it has made no attempt to keep within bounds, but has, on the other hand, over-spent on ordinary current account \$12,056,625.18. This sum had had to be borrowed to meet the current deficits and is now included in the capital debt upon which the people of Alberta have to pay interest."

"Gross carelessness and inefficient handling of the people's affairs" is the charge levelled at the government by the Liberal leader.

"The government cannot blame this on relief expenditures, because the money required for relief has also been borrowed and is included in the capital debt," he said. "It can only be attributed to the carelessness and inefficient handling of the affairs of Alberta, carelessness and inefficiency of the most glaring kind."

Mr. Howson also charged that it was the record which was keeping the government from going to the country.

"In view of their record of inefficiency, it is not surprising that the government is afraid to go to the country or to face the electors in a general election," he said. "Instead, this government, with a total disregard for the rights of the people who elected it, or of their desires in the matter, will betray the trust reposed in them by continuing with its policy of 'drift' until by the expiration of the utmost limit of time it is allowed by law it is forced to meet the people of Alberta and suffer the fate it deserves. In the meantime, however, the people of this province must dig down still deeper into depleted pockets, pull the belts a notch or two tighter, and continue to pay, pay, pay."

Taking up the figures in detail, the Liberal leader subjected them to an analysis and compared them to the estimates for the years concerned.

"An examination of the public accounts shows that the longer this government has been in power the worse it has become," said Mr. Howson. "In 1930, it estimated that it would have a surplus of \$73,741, including the telephones estimates, which turned out to be an actual deficit of \$2,450,751.56. In that year, it was only in error \$2,524,492.56. In 1931, it estimated for a deficit of \$376,841.61, including Telephones, which turned out to be a deficit of \$5,768,332.38. In that year, the government was wrong merely \$5,391,490.77. In 1932, it estimated for a surplus of \$149,200 on income account only, but at the end of the year it had a deficit of merely \$2,107,521.03. It was out in its calculations only \$2,256,721.03. In 1933, it estimated a surplus of \$9,700 and today we are informed that the deficit is \$1,878,630.42. This is only a miscalculation of \$1,877,731.42."

"The government has only been wrong in its estimates,

1930	\$ 2,524,492.56
1931	5,391,490.77
1932	2,256,721.03
1933	1,877,731.42

Total \$12,060,435.78

"Any village council in Alberta which could not estimate its budget more accurately than the government of this province, after its years of experience, would be forthwith discharged by the ratepayers. It must be remembered, too, that the minister who had charge of the preparation of these estimates in all these years is now the nominal premier of Alberta. The manner in which our finances have been looked after is strongly indicative of how all our provincial business has been conducted, and explains why our taxpayers are depressed and oppressed at the present time."

"Turn from the expenditures on current account and look at the tremendous increase in our capital debt or the provincial mortgage that covers our homes and our future earning ability," he said.

"You will find the statement on page 86 of the 1933 Public Accounts: 1921, \$63,050,000; 1926, \$93,139,000; 1930, \$108,266,000; 1931, \$117,439,000; 1932, \$136,267,000; 1933, \$143,914,000; 1934, \$144,548,000."

"Since 1930, our economical and efficient government has increased our provincial mortgage \$86,282,662. In 1930, this government said to the people of Alberta, 'Trust us,' but the people are now saying 'Never again!' The reason is plain. Among many other reasons is the one that since the last election, the Hoadley-Reid government has increased the mortgage interest-bearing burden upon the shoulders of every man, woman and child in Alberta. One-quarter of the total burden has been placed on their shoulders when they could least afford to bear it. When is this enslavement going to stop?"

"What does this interest-bearing mortgage mean to the ratepayers of Alberta? The following shows the continuous increase in the provincial debt-carrying charges that have to be paid every year:

1921, \$1,939,635;	1926, \$4,236,337;
1930, \$4,996,440;	1931, \$5,782,068;
1932, \$6,431,817;	1933, \$6,814,653;
1934, \$6,943,209.	

"The total revenue last year from every possible source, including the contribution from the Dominion government, was \$15,000,000, and we paid out in debt-carrying charges \$6,900,000. This annual increase has to stop, but it will never be done by the Hoadley-Reid government. They have had their opportunity of doing so, but have deliberately refused to raise one finger or voice one word for the relief of the people of this province. It is a little wonder that they are afraid to face the electors, but prefer to hang on at any cost, until forced to go to the country."—Edmonton Bulletin.

"She could swing a six-pound dumb-bell;—

She could fence and she could box. She could row upon the river;—

She could clamor 'mong the rocks. She could golf from morn till evening,—

And play tennis all day long; But she couldn't help her mother, 'Cause she wasn't very strong."

IN MEMORIAM

Christina Elizabeth Solkirk
Passed from the shadows, Edmonton, Sept. 6th, 12.12 a.m.

Beyond obscured-cerulean blue,
No storm-clouds veil the face of Him;
Beyond the false, to all that's true,
Beyond earth's coldest, outmost rim;
Thou'st gone to perfect love and life,
To peace and joy, untouched by strife.
Beyond the stars that brightly shine
Upon the dark world, dankly cold;
Beyond life's dread dividing line,
To love and life that never grows old;
Gone to a love that never fails,
Beyond the thorns, the cross, the nails.
Some wounded thee, the fiery dart
Of treacherous speech, uncouth, unkind.

Was quenched within thy loving heart,
The poison kept from thy pure mind:
Faith, Hope and Charity, were thine,
Thy love so like the love divine.
Misunderstood, thy lofty mind,
Thy heart so tender, gen'rous, true,
Have met at last a judgment kind.
ONE, comprehending heart of You!
With thee, He trod the 'Valley' drear,
His voice dispelled all gloom and fear.
Forgiving all, as thou'st forgiven,
Redeemed by Calvary's Sacrifice;
Thine, ascent to His glorious heaven
When passed the love-light from
thine eyes.

Thy smiling lips that gently sighed,
Proclaimed thy spirit glorified.
Elnora's kindly, christian folk,
Bid thee "Farewell!" with misted eyes.
Glad thou'st beyond life-wrecking rock,
And harbored safe beyond His skies:
Our stricken hearts bid thee Farewell!
We know, with thee, 'tis well, 'tis well.
—J.H.S.

1919 TREATY WITH GERMANY

After the passing of sixteen years, it may be interesting to readers to recall the terms of the Peace Treaty with Germany. It is interesting to note the various clauses in their relation to the present. Germany signed this Peace Treaty unconditionally.

1. Germany's territory in Europe is reduced" from 206,825 to 172,000 square miles; her population reduced from 66,000,000 to 54,000,000. She loses all her colonies.

2. Portions of Germany go to Poland, Czecho-Slovakia and Belgium. Danzig is internationalized and plebiscites will be taken in Upper Silesia, East Prussia, Schleswig and the Saar district to determine national status.

3. The German army must be reduced by March 1920, from 2,000,000 to 100,000 men; the navy from 41 battleships and 49 cruisers to 6 battleships and 6 cruisers. Germany must not maintain any military or naval air forces.

4. All German forts for 50 kilometres east of the Rhine must be dismantled and all fortifications in Heligoland demolished.

5. Germany may produce but little war material and cannot trade in it. She must open the Kiel canal to shipping of all nations, and the Allies will occupy certain districts for 15 years or until she makes full reparations.

6. She must pay all damages to the allied governments, and pay civilians for the losses which they have sustained. Her first payment is 5,000,000,000 francs.

7. She consents to the trial of the Kaiser and all others chargeable with bringing on the Great War.

A COSTLY LUNCHEON

Halifax, N.S.—Tales have been handed down of the feasts of trenchermen of former days, and one wonders just what these affairs cost. There recently came into the possession of the manager of the Nova Scotian hotel in Halifax, N.S., which is owned and operated by the Canadian National Railways, a bill for a dinner held about two hundred years ago in the Great Pontiac Hotel, a famous hostelry of a by-gone day in that seaport town. The dinner was given by no less a personage than General Wolfe, on the eve of his departure to capture Louisbourg on the island of Cape Breton. Louisbourg was taken on July 26, 1758, and Wolfe then proceeded to the capture of Quebec which fell the following year. Here is the itemized bill which was rendered in pounds sterling:

47 plates at \$5.00	\$235.00
70 bottles Madeira wine	
50 bottles Claret	
120 bottles at \$1.25	150.00
25 bottles Brandy at \$1.85	46.25
	\$431.25
10 sets music at \$2.50	\$25.00
Supplies for musicians	13.75
15 special attendants \$1.00	15.00
Table master and his supper	7.60
	\$492.60

To Gen. Wolfe, Halifax, 24 May, 1758

Joe Simpson, a gentleman of color, got a job on a railroad construction gang. The first day, the boss seemed to pile all the hardest work on Joe. He carried heavy timbers and rails all day. That evening, tired out, he approached the boss. "Boss, is you she' you got my name right on de payroll?"

"Boss: 'Sure, Joe Simpson, S-I-m-p-s-on. Right!'"

Joe: "Dat's right. I thought she' you had me down as Samson."

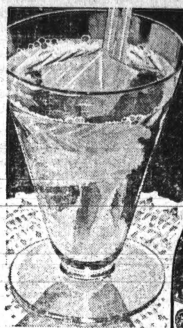

"Walpole once wrote," said the fellow, dreamily, as he parked the car, "that the world is a comedy to him who thinks, and a tragedy to him who feels."

"Well?" said the girl.

"Well," continued the fellow, shutting off the lights, "I think I'm about to get tragic."

WILL PROPORTIONAL REPRESENTATION BE USED BY PRIME MINISTER

(By Wilfrid Eggleston)

Ottawa. — A report to the effect that the Conservative government would introduce proportional representation in Canada before the next general election, with the idea of "dishing the Grits" has been given wide circulation, even permeating political circles in Great Britain, according to a Canadian who recently returned from the Old Country.

There is no confirmation of the report here, but such a step would have to be endorsed by a political caucus which would not in ordinary events be held until the next session.

In the past the support for proportional representation has mainly emanated from the "south-east corner." The co-operating groups, especially members of the U.F.A., have repeatedly called for a reform of the existing electoral system, which is admittedly unfair and inadequate. Some Liberals have supported it also, notably Hon. Ernest Lapointe; but it is significant that during the last Liberal administration there seemed to no tremendous rush to enact it. The political fact was that the Liberals held power from 1921 to 1930 without at any time representing 50 per cent of the Canadian electors.

The same thing is still true, the Conservatives having won 129 seats out of 245 in 1930, with only 49 per cent of the total popular vote.

The debates in Ontario, Saskatchewan, and British Columbia have impressed on the Conservative party the possibility of the present system of voting virtually wiping them out of existence, especially when third parties poll heavy votes. The possibility of the Ontario or Saskatchewan tragedy being re-enacted in the next Federal election, unless reforms in the voting system are earlier instituted, must have occurred to the more realistic members of the party. A system of voting which resulted in party standings more nearly reflecting the actual vote would be bound to assist them, should such a situation develop.

In Saskatchewan the Conservatives polled a fair vote (well over 100,000) and yet did not elect a single member. In British Columbia and Ontario their numerical strength in the present legislature is far below their fair share, based on the voting.

If a reform of the present system is made, say proportional representation in the larger centres, with multi-member constituencies, and the alternative vote in the rural ridings, it will also assist the C.C.F., judging from the provincial results.

In Ontario a truly representative system would have given the C.C.F. at least eight members, instead of the one they elected. In British Columbia it would have resulted in the election of 14 to 15 instead of 7.

The reform of the present voting system would probably do away for all time with the violent oscillations between one party and another which prevail under the present system. These "landslides" when analyzed, are nothing like so sweeping as the results indicate. The Conservatives in Ontario's last election actually polled 7,000 more votes than they had in the previous election, yet their representation fell from 90 to 16.

NEW DOMINION PARLIAMENT ACT GOES INTO EFFECT

At the last session of the Dominion Parliament there was passed an act of facilitate compromises and agreements between farmers and their creditors.

The act was drafted for the purpose of dealing with the farmers' financial difficulties.

The government had in mind to make the cost as inexpensive as possible and provide the simplest machinery possible.

Compromises or rearrangements may be effected of the debts of those farmers who are unable to pay, but whose statements indicate a hope of success.

Also where the indebtedness is out of all proportion to the assets, and in order to make a fresh start bankruptcy is the only solution, provision is made for an assignment at small expense.

The object of the legislation can best be indicated by quoting from the Preamble of the Act. "Whereas in view of the depressed state of agriculture the present indebtedness of many farmers is beyond their capacity to pay; and whereas it is essential in the interests of the Dominion to retain these farmers on the land as efficient producers, and for such purpose it is necessary to provide means whereby compromises or rearrangements may be effected of debts of farmers who are unable to pay."

The Act then makes provision for getting the farmer and his creditors together, and provides also for both sides getting a true statement of the affairs and a settlement then arranged on an equitable basis between the parties concerned.

The procedure is simple and easy. An official receiver will be appointed. To this man the farmer will go and the official receiver will assist the farmer in preparing his statement and making his proposals to his creditors. This proposal and statement will go to each creditor, with a notice of the date and place of meeting. At this meeting the affairs will be

frankly discussed, and a settlement arrived at. The filing of a proposal of settlement with the official receiver will act as a stay of proceedings, and no action can be taken against the farmer for a period of 60 days.

The legislation is the most advanced placed on the statute books of Canada and offers a solution to many of the debt problems of the farmers.

The act provides all the facilities for the debtor farmer and his creditor to get together and come to a settlement, and failing to be able to do this, each province has set up a Board of Review, which may make the provision for settlement, which shall be binding on all parties.

The new act came into effect in Alberta on September 1st of this year by order-in-council. It is probable that the present Debt Adjustment Act of Alberta will be wiped out.

The new act will give farmers desirous of making a settlement an opportunity of doing so on a basis which should prove satisfactory to both debtor and creditors, and give the debtor farmer a chance to settle his debts and get a new start.

THE HEIGHT OF IMAGINATION

The American Weekly, one of the Hearst publications, devotes a whole page of its last issue to the sensational Brownlee-MacMillan case, which was tried recently at Edmonton. It was almost a cinch that the publication in question would get hold of it, much the same as a vulture seeks out choice bits of carrion to gobble up. So really we were not surprised when we saw it there. But this is not the first western Canadian sensation that Chicago papers have featured. Well do we remember when the supposed gold rush of the Lost Lemon Mine took place here three or four years ago, when the Chicago Blade and Ledger printed a thrilling story of the event and showed a picture of men and women holding sacks at the foot of the Livingstone Range, while others were up on top of the mountain looking down the big gold rocks so that they would roll down into the sacks. The artist who sketched the picture from the description had a fertile imagination, and drew upon it to the limit. —Clareholm Local Press.

RAVINGS OF A MOON.

MADDENED MORON

It was midnight on the ocean,
Not a street car was in sight;
The sun was shining brightly
For it rained all day that night.

It was a summer day in winter,
The moon was shining bright;
A barefoot boy with shoes on
Stood sitting on the grass.

It was evening and the rising sun
Was setting in the west;
The little fishes in the trees
Were huddling in their nests.

A heavy rain was pouring down,
The moon was shining bright;
And everything that you could see
Was hidden out of sight.

Why is the forum crowded?
What means this stir in Rome?
Under the spreading chestnut tree
There is no place like home.

I stood in the open door
Of the house on the vacant lot,
And I saw a fair-skinned negro
Bolling snowballs in a pot.

While the organ peeled potatoes,
Lard was rendered by the choir,
While the sexton rang the dishrag
Someone set the church on fire.

"Holy smoke," the preacher cried.
In the rain he lost his hair.
Now his head resembles heaven,
For there is no parting there.

An Irish priest offered sixpence to the boy who could tell who was the greatest man in history. "Christopher Columbus," answered one. "George Washington," answered one. "St. Patrick," shouted a bright little Jewish boy. "The sixpence is yours," said the priest. "But, why did you say St. Patrick?" "Right down in my heart I knew it was Moses," said the boy, "but business is business."

TAKES OWN LIFE MINUTES BEFORE HIS POLICY EXPIRES

LONDON. — Unable to keep up payments on his insurance policy, Mayor Charles St. John Rowlandson, 56, retired army officer, shot himself in a taxicab at 2.58 p.m. on the day upon which, at 3 p.m., his policy would have expired. The suicide took place in St. James Street W., after he had asked the driver to tell him the time by the clock on St. James' Palace. Whether his estate will be allowed to collect the insurance money may be dependent upon the accuracy of that hundred-year-old clock. The policy is for £50,000.

Rowlandson had many obligations, and in a note addressed to his solicitor, he stated that if he filed his petition, many people who believed in

him would suffer terribly. He realized that he was technically seeking to defraud the insurance company, he said.

The coroner described the suicide as cold-blooded and calculated, and recorded a verdict of felo-de-se.

The insurance company have not yet decided what course they will take—whether they will pay or otherwise. It is generally considered contrary to public policy for a man or his estate to derive any benefit from his own felonious acts, and therefore, in

respect of any clause in the policy, it is believed that no recovery could be made by the representatives of an insured person who committed suicide while of sound mind, or died as the results of a duel, or by the hands of justice.

A Clareholm man recently lost an upper set of teeth near a town dairy. He had his suspicions, and followed the cows for four days until he recovered his chewing apparatus.

WORLD HAPPENINGS BRIEFLY TOLD

The French plane Arc-En-Ciel arrived at Natal, Brazil, after successfully flying the south Atlantic from Dakar, French West Africa.

Dr. Carl Olaf Jensen, one of the world's most eminent cancer research workers, died recently at Copenhagen of apoplexy.

A new attendance record was recorded at the Canadian National Exhibition with 265,000 persons entering the grounds on Labor Day.

The "Ontario Bulletin," official publication of the Ontario government offices in London, England, has ceased publication as the result of the government's decision to abolish the offices.

The British Columbia board of industrial relations is considering minimum wage regulations for male office workers. Adam Bell, chairman of the board and deputy minister of labor, announced.

The U.S. farm administration reported that up to August 31 it had purchased 4,250,000 cattle in more than a score of drought states, for which part payment of \$38,811,870 already has gone to nearly 250,000 farmers.

Returned from a five-week tour of the northwest, Stan Johnson, western district manager for Booth Fisheries Canadian Co., Ltd., said that the fish catch in the northern prairie provinces has been "enormous" this summer.

A delegation of the Japan Prohibition League visited Premier Kellogg Okada and urged that the sash-wearing official give up the use of alcohol. The premier listened long enough to ascertain the object of his visitors and then turned away without answering.

George Batho, of the Manitoba department of agriculture, announced the finding of a new weed plague in Manitoba. Field bindweed, he said, had been located near Winnipeg, in the southern part of the province. He said it was the first time the weed had been encountered in Manitoba.

Little Journeys In Science

CORN PRODUCTS

(By Gordon H. Guest, M.A.)
Corn, which grows abundantly on this continent and in the West Indies, is perhaps one of the most widely used grains. Apart from being a common food in the form of meal or cereals, the kernel when opened, is found to have three parts: the outside, or husk, the small oily germ, and the mass of white material which is mostly starch.

One bushel of corn gives approximately one pound of oil which is refined and sold as a vegetable fat for cooking. The less refined grades are utilized for soap making or for the production of glycerine and nitroglycerine.

Starch from the corn is made into corn starch, for cooking, and into laundry starch.

Another important use of this grain is in making corn syrup which is a widely used product. Corn syrup is made by converting the starch in the corn into a sugar, known as glucose, through treating it with acid in large pressure tanks under fifty pounds of steam. This treatment changes the starch into the thick sweet substance which we know as corn syrup.

From corn also is extracted a type of gum, which is used in place of rubber to some extent. "Red rubber" erasers and sponges may be made from this substance. It is also used in the manufacture of rubber soles for shoes.

Outer husks of the corn and some residues of the oil products are made into cattle food, adding still another to the many products of this common grain.

Silencing The Bore

"The world's a small place," said the bore. "For instance at Easter in Paris I met a man who lives in the next road to me. Later I met him in Venice, then in Rome, again in Alexandria, and finally I crossed the channel, with him. What do you think of that?"

"Why didn't you pay him what you owed him in the first place?" asked the little man in the corner.

A flight through a heavy rain by a plane equipped with a wooden propeller will eat away several inches of the propeller.

It requires two and a half months for a shipment of Canadian flour to reach Calcutta from Vancouver.

W. N. U. 3068

What Does Your Handwriting Tell?

By LAWRENCE HIBBERT
(Grapho-Analyst)
(All Rights Reserved)

Handwriting analysis, to be accurate and helpful to the writer, must be based on lengthy research and a painstaking regard for basic values.

I am repeatedly asked if there is anything magical about character reading from handwriting. No, I am taking this opportunity of again stressing that when I make an analysis of a specimen of hand writing, I am not literally taking a rabbit out of your best hat, in the approved conjuring manner!

It may seem to the lay-person that, for a Grapho-Analyst to give what turns out to be an accurate analysis from handwriting, is to perform a regular magician's trick—a sort of Houdini cum Maskelyne cum Thurston device.

Nothing could be further from the truth. It is simply a scientific evaluation of the indications revealed to the practiced grapho-analytic eye by the handwriting specimen. When you go to a doctor, and he tells you that you have a certain organic ailment, you do not imbue him mentally as a magician. You know that his medical education, his training, his research and his practice, have all coalesced into an ability to diagnose ailments. He himself will not regard himself as infallible; he may, quite possibly, call in extra-medical advice from his conferees.

And even if, on occasion doctors do, he makes a mistake, you do not stigmatize medical men as quacks. . . . Because doctors have not yet found a cure for cancer, you do not hesitate to go to a medical man when you are suffering pain, or feel that you have some physical derangement.

Grapho-Analysis, like medicine and surgery, is still searching for hidden truths about its own science. It is making tremendous and rapid strides. But do not damn it because, sometime in the past, you have been dissatisfied with one particular member's analysis.

I have been asked of what practical value is it to people, to have their handwriting analyzed. As well might one ask what use is it to a salesman to learn how to become a better salesman; or a business man to know more about his business; or a nurse to gain a better understanding of, and more tolerant sympathy with her patients.

For, as all these are sensible suggestions, so is it just as essential for you to know yourself. Grapho-Analysis shows you not only your general characteristics, but hidden tendencies that may burst into characteristics at any time.

It shows you where are your faults, and thereby gives you a chance to correct them. And it always puts a person on the path to greater personal understanding, and enables one to get more from others.

Here are a few brief extracts from analyses made for readers:

E. C.—There is a frank, generous and sympathetic nature revealed. One who longs for affection, but is sensitive to praise or blame; too sensitive, perhaps. You have a strong desire for intellectual companionship, and have a love of the beautiful in nature or art.

E. A.—Your writing shows that you have an enquiring turn of mind; you wish to get at the bottom of things, but you are inclined to be a little forgetful about those things in which you are not interested and to slight them. Don't let this grow.

A. W.—You have a material nature, and are likely to consider your interest in the material world, responding to appeals from others. You are not inherently generous. Do not let this tendency develop into "tightness" or "meanness."

Do you want a personal analysis of your own handwriting, showing your faults and virtues? You will probably amaze you with its revelations of your character, and may open the door of opportunity to you. Send a letter in your normal writing, and state your exact birthdate. Enclose with the letter (for each specimen) and 3c stamped address envelope to: Lawrence Hibbert, Grapho-Analyst, c/o Winnipeg Newspaper Union, 175 McDermott Ave., E., Winnipeg.

Racial Prejudice

Britisher Says Canadians Will Find Strength In Union

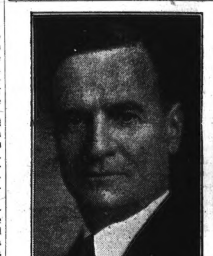

Citizens of the Dominion be they of French, English, Jewish, Swedish, Irish or Scottish ancestry were warned against racial prejudice and urged never to forget that first, last and always they are Canadians. Reminder that "you will find strength in union," came from Rt. Hon. H. A. L. Fisher, former minister of education in Great Britain and warden of New College, Oxford, speaking at a civic luncheon in Montreal tendered the official delegates of Great Britain, France and the United States to the quarter-century Jacques Cartier celebrations.

An Amazing Machine
An amazing machine which, thinks, likes, dislikes, forgets, remembers, and chooses its food has just been invented by a young American scientist in Boston. It can show resentment when its hair is pulled, and shake its head in disgust at food it has been taught to dislike.

A new microscope is equipped with a four-eyepiece attachment for monocular observation instead of the usual one.

TURRET

has the QUALITY that counts - and POKER HANDS, too!

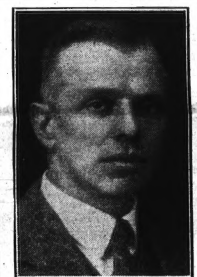

Louis L. Lang, President, Galt, Ont.

Frank W. Reinisch, Chief Farm Manager

J. F. Weston, Vice-President

T. O. F. Herzer, General Manager

Colonization Finance Corporation

Inspection Trip To The West By Officials Of The Organization

Mr. Louis L. Lang, of Galt, Ontario, president of the Colonization Finance Corporation, stated on arrival at Winnipeg, "This is the second inspection trip made by myself, but in the first trip which I am undertaking jointly with executive officers of member companies associated in the work of the Colonization Finance Corporation. My colleagues on this inspection tour are, Mr. J. F. Weston, vice-president of the Colonization Finance Corporation and managing director of the Imperial Life Assurance Company; A. N. Mitchell, general manager of the Canada Life Assurance Company, and W. H. Somerville, general manager of the Mutual Life Assurance Company. We are interested in the farm management program of our corporation because we realize what improvement to agriculture means to Eastern Canada as well as to the business interests in the West. This year marks the fifth year of the operation of our corporation. Beginning in 1930 with 25,000 acres under the supervision of two farm managers, we have at present a field staff of fifteen farm managers and assistant farm managers covering all of Manitoba and Eastern Saskatchewan. The zone farm managers' headquarters are at Winnipeg, Galt, Portage la Prairie, Brandon, Killarney, Deloraine, Virden, Oxbow, Dauphin in Manitoba; and Indian Head, Yorkton, and Canora in Saskatchewan. These men have under their supervision 1,763 farms, totaling 602,382 acres. About 70% of these farms are occupied and operated by their farmer owners; the interests of our member companies being represented by mortgage or an agreement of sale. Only 30% of the farms are operated by tenants. One of the objects of our work is to assist farmers to retain the farms they are at present operating by co-operating with them in any improvements which are possible, and also to make it possible for a substantial number

of tenants to purchase the farms which they are at present farming under lease. The farm management service supplied by the Colonization Finance Corporation covers at present all of the arable land in Manitoba from the international boundary north to township 38, and the Eastern part of Saskatchewan as far as Regina. On July 1st we established a farm management zone in the Swan River area, the only district we had not covered until this year.

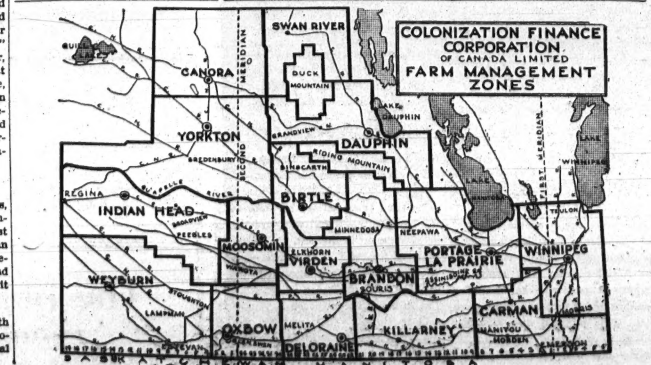

The object of this inspection trip for my associates and myself is to inspect the work which is being carried on, to note how it is being regarded by the individual farmers and the communities and districts in which we operate, and to give us the necessary information with which we can formulate a policy for the future of this work, which I believe to be worth while. As rapidly as conditions warrant, and as qualified men can be obtained and trained for farm management, we hope to open new zones. The necessary attention to detail and the cost of this work are naturally limiting factors.

While Mr. Somerville and I have met most of the farm managers last year, I am particularly pleased with the conference arranged at Clear Lake in the Riding Mountain National Park which will give Mr. A. N. Mitchell, and our Vice-President Mr. J. F. Weston, an opportunity of meeting and sizing up our men in the field.

There was one change made in our personnel during the year. Mr. O. S. Longman, zone manager at Indian Head, was appointed Field Crops Commissioner for the province of Alberta and he was succeeded by Mr. W. C. McKillop, former Dean of the Manitoba Agricultural College whose zone we shall visit. Our trip last year took us through Southern Manitoba, particularly that portion affected by the drought, and Southern and South Eastern Saskatchewan. This year we have planned to visit the eastern portion of the Red River Valley; we shall visit the Portage Plains and the Minnesota and Neepawa districts, and we expect to visit the Swan River Valley. We shall be accompanied by Mr. W. R. McConnell of Regina, by a number of our loan managers in the West, and officials of our corporation. In Saskatchewan we expect to visit farms in the Canora, Yorkton, and Indian Head zones. We shall bring our returning East while others are proceeding westward on business of their respective individual companies."

Basis For Security
Complete prevention of war, not "simply a futile attempt to humanize it," will give the world the security it wants, Arthur Henderson, president of the disarmament conference, told the Co-operative Societies of England at a meeting in London.

Gliding tests are to be made by German air pilots over the South Atlantic.

SUNDAY SCHOOL LESSON

SEPTEMBER 16

ISAIAH CONTRASTS FALSE AND TRUE WORSHIP

Golden text:

Who shall ascend into the hill of the Lord?
And who shall stand in his holy place?
He that hath clean hands, and a pure heart.
Isaiah 1:1-31.
Devotional Reading: John 4:20-24.

Explanations And Comments

The Perverseness of God's People, verses 1-9. "The Great Arrangement" is an apt phrase given to this chapter by Ewald. God's chosen people have rebelled against him. Even the dumb animals, the ox and the ass, are responsive to their masters, but the people of Judah do not consider their Lord. This perverseness has brought punishment upon them, and it is only because of Jehovah's mercy that they have escaped the fate of the people of Sodom and Gomorrah.

Outward Signs of Religious Zeal Do Not Deceive Jehovah, verses 10-15. The prophet Isaiah now hears in spirit the remonstrance of his audience, Delitzaeh thinks. "They would raise up the accusations which he had just uttered as unfounded, by appealing to their exact observance of the divine law; but in opposition to this round of self-justification which the prophet has read out of the hearts of those impenitent, he but proceeds to prove the divine arrangement which begins in verse ten."

"Hear the word of Jehovah, ye rulers of Sodom," the prophet cries; "give ear unto the law of our God, ye people of Gomorrah." By addressing them as "rulers of Sodom" and "people of Gomorrah," he reminds them alike of their wickedness and of their danger. The "law" to which he bids them give heed, is the inspired discourse he is about to inspire.

"What unto me is the multitude of your sacrifices?" saith Jehovah: "I have had enough of the burnt-offering, and the fat of fed beasts; and I delight not in the blood of bullocks, or of lambs, or of he-goats." Their altars reeked with the blood of sacrifices, but it was all an expression of religiousness, not of religion.

The Nature of True Worship, verses 16, 17. "Wash you, make you clean, remove the filth of your hands, before mine eyes." "Wash you, make you clean" are figurative words for repentance and amendment. Recall David's cry after his great sin: "Create in me a clean heart, O God, and renew a right spirit within me."

"Cease to do evil; learn to do well." It is not enough to cease from sin. True worship consists also in right living, in service for others.

Silence Zone

Motor Horn Order Gives British People A Chance To Sleep

An "anti-hooting" order to motorists during sleeping hours has proved so successful in London that the ministry of transport has decided to extend it to every city, town and "built-up" area in the country.

Thus England will become a vast silence zone between the hours of 11:30 p.m. and 7 a.m. so far as motor horns are concerned.

Had Long Job

Topographers at Wellesley, Mass., have been working for six years on a huge map of the United States. When finished it will be 68 feet long, 46 feet wide, and will show every mountain and valley in the country reproduced exactly to scale in height and size. Eventually it will contain 900 blocks.

Thomas Jefferson was 33 years old when he drafted the Declaration of Independence.

Rome is to have an auditorium seating 5,000 people.

The town of Coleman is not throwing away money on monuments to the like of Tim Buck.

A rumor has been going the rounds for the past week to the effect that a local company was being formed, with a capitalization of \$10,000, for the purpose of operating a co-operative store in Blairmore.

Crows' Nest Chapter, I.O.D.E., will observe their 11th Anniversary by holding a Whist Drive and Dance in the Lodge Hall on Wednesday next, September 19th, commencing with cards at 8 p.m. Four prizes. Dancing after lunch. Admission 35c.

Among the former Pass teachers engaged in Calgary schools for the fall term we notice Miss C. L. Williams, B.A., Alexandra school; Miss J. E. McCallum, Balmoral; Miss B. Douglas, Cliff Bungalow; Miss W. B. Williams, King Edward; Miss L. M. Perkins, Mount Royal; Miss V. J. Keith, Parkhill (principal); Miss E. MacArthur, Stanley Jones; Miss E. M. Fulton, Sunnyside Bungalow; Miss W. Verge, Riverside Junior High; E. Asselstine, Central High; C. V. Asselstine, Miss E. H. Atkinson, Crescent Heights High; Miss M. T. Davis, Hillhurst High.

Members of the younger generation are alike in many disrespects.

Attractive cent-a-mile fares to Banff and return are offered by the Canadian Pacific, September 14th and 15th, with return limit September 18th from Banff. September is usually a delightful month in the mountains, and the announcement will be welcomed by lovers of beauty as an opportunity to spend a few days at the famous mountain resort. Mr. Passmore, local ticket agent, has full particulars, and will be glad to give any information.

The employees of the Consolidated Mining and Smelting company of Canada are receiving this month a 10-cent silver bonus. The bonus is based on the average price of silver above 35 cents in Canadian currency. For each cent that the month's average is above 35, each man receives a cent an ounce for each shift worked. Calculations are made on the previous month's figures. The men are receiving the July price of silver. Employees at Kimberley, Trail and elsewhere are quite jubilant over this raise in pay, as it furnishes tangible proof that business in mining at least is on the mend.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

WANTED to buy Used Piano Stool. Apply Enterprise.

Mike Murphy used his "moose call" when passing through Blairmore on Thursday.

A man has been arrested in Detroit in connection with the John S. Labatt kidnapping.

With Bill Jenkins at the helm, Coleman Lodge of Elks gives promise of successful operation.

Vernon Stott, representing Barber-Elis of Alberta, Limited, was a caller on The Enterprise on Tuesday.

FOR SALE—300 Barred Rock and Rhode Island Red Pullets, ready to lay, weight about 5 pounds. Apply J. W. Fortier, Cowley.

GET READY for the FESTIVAL. All instruments repaired, bows re-haired, pianos tuned. Work guaranteed. F. A. Beebe, Phone 37.

When "Duke" Stewart saw the Niobe speeding up the Livingstone river on Saturday morning last, he quit fishing.

Tim Murphy has secured a lease of the pool hall in the Rossi building, until recently operated by Dan Lewis.

Organized Canadian labor, in convention at Toronto on Tuesday, reiterated its opposition to Communistic teaching and policies.

Colin G. Groff, Alberta government publicity commissioner, was in town yesterday, accompanied by Mr. Huestis, of the forestry department.

Charlie Cheesman has sold out his barber shop at Cardston to Scott and Howes, of Magrath. Charlie has gone into the restaurant business, taking over the Cahoon cafe.

It is believed that the fire that destroyed the Morro Castle, taking upwards of 100 lives, was the work of Communists who boarded the ship at Havana, carrying in their baggage fire-making chemicals.

The town of Nanton paid its last surviving debt on September the 1st. All the town owes now is what has been borrowed on the security of current taxes, and it has more cash on hand than it owes.

From The Blairmore Enterprise, August 14th, 1947: "John Oakes, a married man, was fined \$25 and costs for parking his car for one hour and ten minutes beneath the piny trees in Tim Buck's Boulevard."

Printed forms, manufactured in either in Lethbridge or Moscow, are being used to bill Blairmore business people for their business penalties. Why not take a same tumble and go to Moscow for their taxes?

Of unexpected jobs assigned Boy Scouts, one of the strangest was that given the Medicine Hat Scouts when requested by the R. C. M. P. to help search for the missing skull of a skeleton.

Snow appeared on the mountain peaks in the vicinity of Waterton last week end, and this week Edmonton reports their first blanket, while Blairmore was visited by a slight fall this morning.

The inquest into the death of Jas. Pelle, Bellevue miner, who lost his life in the Bellevue mine last week, was adjourned to Tuesday next, owing to the fact that Mr. Pelle's partner in the mine, Silvio Commem, was unable to attend.

Digging a well underneath his house last week, a Blairmore resident unearthed the frame of a dinosaur. He claims, however, that from all he could figure, all he had recovered was a hip joint. He is very anxious to get into touch with a hip-notist.

Cap. recalls, when you could kiss a girl and taste nothing but girl.

High heels, according to Johnny Jenkins, were invented by a woman who had been kissed on the forehead.

We had another birthday last Sunday, the twenty-sixth since coming to Blairmore.

A daughter was born to Mr. and Mrs. Archie McDowell, of Beaver Mines, on August the 14th.

A little five-year-old tot entered the drug store on Saturday and asked for "a baby clinic for mammy."

List of winners at the recent Bellevue flower show will appear in next week's issue of The Enterprise.

The tenth annual Crows' Nest Pass Musical Festival takes place in Blairmore on October 26th, 26th and 27th.

In France no fewer than 800 Boy Scouts are preparing for ordination in various Roman Catholic seminaries and novitiates.

Mr. and Mrs. Joe Hillary, of Bellevue, have been visiting Mr. and Mrs. J. Hillary, senior, at Midlandvale for a week.—Drumheller Mail.

It need not be assumed that the young bride worships her husband because she places burnt offerings before him three times a day.

The business people of Blairmore, Alberta, are taxed a little extra to help construct a monument for Tim Buck. Next lowest, please?

George Turner, a fifteen-year-old Lethbridge boy, suffered a broken leg when he fell from a coal chute at Crows' Nest.

Dr. W. S. Galbraith, of Lethbridge, has been signally honored by being made president of the Dominion Medical Council.

R. R. Bennett, prime minister of Canada, has been elected chairman of the second commission, or committee, of the League of Nations at Geneva.

Mrs. G. Bond, who has been visiting in Calgary for the past three weeks, returned home this week, accompanied by her daughter Milda, who will spend several days here.

Announcement was made Monday of the election of D. C. Coleman to succeed Grant Hall as first vice-president of the C.P.R. W. M. Neal succeeds Mr. Coleman.

The Catholic Women's League are making preparations to again hold their annual bazaar, which will take place this year on Wednesday, November 7th, in the Columbus hall.

Graham Ford Towers, assistant to the general manager of the Royal Bank of Canada, and one of the youngest of the Dominion's high-ranking officials, has been appointed governor of the new Central Bank of Canada.

C. M. Gibbs, M.P.P., prominent lawyer and legislator, passed away in hospital at Sault Ste. Marie, Ontario, last week. He had gone east to visit his son Lionel, who is engaged in newspaper work in Toronto, and while there suffered a paralytic stroke. His passing is a serious loss to the public life of Alberta.

Mr. D. A. Perry has added to his collection of beautiful plants one which was new to us and named a Gloxena. It belongs to the bulb variety and produces beautiful bell shaped flowers; its centre being a deep rich wine shade, the outside a velvety white, and looking through from the outside it shades a delicate pink. It certainly is a flower of rare beauty.—Strathmore Standard.

Mrs. J. Baird was a visitor with Mrs. T. Simms, at Fernie, this week, returning home last evening.

Formal entry of the judgment of Mr. Justice Ives, dismissing with costs the action of Vivian McMillan, of Edson, and her father, against former Premier J. E. Brownlee, was not made until about two weeks ago. Notice of appeal was filed on July the 20th, but will not be heard at the next sitting, because the appeal books have not been ordered yet.

The annual duck season opens on Saturday, as does also Hungarian partridge. Blue grouse, ruffed grouse, spruce partridge, prairie chicken and ptarmigan may be hunted October 1st to 15th; Hungarian partridge September 15th to December 15th, bag limit 15 per day or 200 for the season. Bag limit for prairie chicken, 5 per day, 25 for the season.

Dr. G. M. Ross, of Big Valley, claims to have discovered a remedy and treatment for the testing, treatment and cure of cancer, and has called his remedial compound "Carcinolymphe." He is organizing a syndicate for the purpose of disseminating view of the disease and treating persons afflicted with cancer with his compound, which he claims is a cure, and also to place before the medical profession details and particulars regarding the treatment.

At the Harvest Festival sale to be held at the United church on Monday night next, tea, sandwiches, pies, etc., will be served by the Ladies' Aid, for which a nominal charge of 15 cents will be made.

Miss Selisk, whose death we announced last week, passed away in an Edmonton hospital, following a lengthy illness. We understand the remains were laid to rest at Elora yesterday afternoon.

About a week ago, Milo Fuller, of the Riverside Iron Works, Calgary, was credited with the capture of the record cut-throat trout for a certain territory in Alberta. Since then, a man named Nelson Williams, of Banff, reports landing a cut-throat weighing 7½ pounds. And in September of 1933, George Harrison, of Banff, claims to have taken one out of Lake Lemen that weighed slightly over 8 pounds.

Advices from Ottawa last week stated that the families of N.C.O.'s and men of the Royal Canadian Mounted Police are to be protected by pensions contributed by the men themselves during their term of service. At present R.C.M.P. non-commissioned officers get pensions for long service and on retirement, but the new plan provides annuities for their wives and children. The men will contribute five per cent of their pay to a fund for this purpose.
